- Public Policy
- Security Management
- Sports and Health Sciences
- Sports Management
- Transportation and logistics

Associate Degrees
APU offers Associate of Science and Associate of Arts degrees that require between 120 and 124 credit hours (39-40 courses and 1-4 labs) depending on the program. Students must have a high school diploma or equivalent to be admitted to an associate degree program.

- Accounting
- Agriculture
- Administration
- Criminal Justice
- Cybersecurity
- Emergency Management
- Homeland Security
- Health Information Management
- Entrepreneurship
- Management
- Accounting
- Legal Studies
- Cybersecurity Studies
- Criminal Justice
- Business Administration
- Political Science
- History
- Public Administration
- Public Policy
- Security Management
- Sports and Health Sciences
- Sports Management
- Transportation and logistics

Bachelor’s Degrees
APU offers Bachelor of Science and Bachelor of Arts degrees that require between 120 and 124 credit hours (39-40 courses and 1-4 labs) depending on the program. Students must have a high school diploma or equivalent to be admitted to a bachelor’s degree program.

- Accounting
- Agriculture
- Administration
- Criminal Justice
- Cybersecurity
- Emergency Management
- Homeland Security
- Health Information Management
- Entrepreneurship
- Management
- Accounting
- Legal Studies
- Cybersecurity Studies
- Criminal Justice
- Business Administration
- Political Science
- History
- Public Administration
- Public Policy
- Security Management
- Sports and Health Sciences
- Sports Management
- Transportation and logistics

Master’s Degrees
Master’s programs range from 36-48 credit hours (12-15 courses) and include a comprehensive exam, a thesis, or an integrative practicum. Students must have completed bachelor’s degree from an accredited institution to be admitted to a master’s program. In addition, some graduate programs, such as the Master of Education, have specific admission and program requirements.

- Accounting
- Business Administration
- Criminal Justice
- Cybersecurity Studies
- Education Leadership
- Education Teaching
- Emergency Management
- Entrepreneurship
- Environmental Policy and Management
- Health Information Management
- History
- Homeland Security
- Humanities
- Information Technology
- Intelligence Studies
- International Relations and Conflict Resolution
- Legal Studies
- Management
- Military History
- Military Studies
- National Security Studies
- Nursing
- Political Science
- Psychology
- Public Administration
- Public Health
- Public Policy
- Sports Management
- Security Management
- Sports and Health Sciences
- Sports Management
- Transportation and logistics

*Exact degree options and course requirements may vary. Check with an academic advisor to confirm specific requirements for each program.

A Tradition of Excellence
American Public University (APU) is a leading provider of quality, affordable online education to motivated students worldwide. Recognized by the Online Learning Consortium (OLC) for best practices in online education—we earned our reputation by never forgetting our students are priority one. While education costs have risen sharply around the world, our rates are economical and an undergraduate book grant is available. Join our global learning community and you’ll be connected to more than 100,000 scholars and learn from many faculty members who are experts in their industry. We continuously consult with industry leaders through our advisory councils to verify that our curriculum addresses current practices and technologies that are career relevant. No matter where you live, work, and learn—you’ll always be welcomed with our tradition for exceptional service and support at APU.

What Sets APU Apart
Whether you’re returning to the classroom after several years, seeking additional academic credentials to be more competitive in the workplace, or simply wish to obtain your degree for personal reasons—our programs are designed to help you build a strong foundation to compete in today’s global marketplace. You can complete your degree from virtually anywhere on earth—enabling you to fit a quality education into your life. APU is:

Respected
American Public University is part of American Public University System (APUS), which is accredited by the Higher Learning Commission, USA (www.hlcommission.org, 312-263-0456).
• Our faculty combines academic excellence and research-based best practices with professional expertise.
• APU bachelor’s programs were ranked in the top 10% in U.S. News & World Report’s 2015 national online rankings.
• We’ve been nationally recognized as the unprecedented four-time recipient of the OLC Effective Practice Award.
• APU forms educational alliances with leading companies and associations, including:
  - American Sport Education Program (ASEP)
  - BAE Systems Information Solutions, Inc.
  - Logistics Institute
  - National Aeronautics and Space Administration (NASA)
  - National Association of Environmental Professionals (NAEP)
  - Society for Human Resource Management (SHRM)

*According to a 2012 National Survey of Student Engagement (NSSE).

Affordable
• Undergraduate tuition is $810 per 3-semester hour course, and graduate tuition is $1,050 per 3-semester hour course.
• Our Undergraduate Book Grant provides e-books and other required course reading materials at no cost for undergraduate-level courses for credit. **

Online
• Classes start monthly and are offered in 8- or 16-week sessions.
• Study on your terms. Our classes operate on a weekly schedule with no specific login times during the week. You are free to manage your daily commitments with required coursework—as long as you meet your assignment deadlines.

The First Step.

Faculty Spotlight: Wendy Lawrence

A veteran of four shuttle missions, including one which featured the first in-flight repair to an orbiter in 2005, Wendy Lawrence exemplifies the caliber of faculty you will find at APU. After 1,225 hours in space, 14 years, and four shuttle flights, Lawrence retired from the National Aeronautics and Space Administration (NASA) in 2006.

Lawrence also spent time as the Director of Operations for NASA at the Gagarin Cosmonauts Training Center in Star City, Russia. She has traveled extensively all over this world, in addition to her space travels.

Professor Lawrence received her B.S. in Ocean Engineering from the U.S. Naval Academy and her M.S. in Ocean Engineering from MIT and Woods Hole Oceanographic Institution (WHOI).

Professor Lawrence is a retired naval aviator with 25 years of service including several deployments. A leader in her field, she brings extensive direct knowledge of aeronautics to APU and is an active mentor for her students.

Alumni Spotlight: Aneesah Akbar-Uqdah

Mississippi native Aneesah is a public health analyst at the Centers for Disease Control and Prevention (CDC) in Atlanta, where she supported response efforts for the 2014 Ebola outbreak in West Africa.

Her current duties include forming professional partnerships with the CDC’s new Global Health Security Division, the World Health Organization (WHO), the Department of Defense, and State Department. Liaising with each of these entities, Aneesah analyzes intelligence, foreign policies and agendas that directly impact pathogen security, biological threats and infectious diseases in order to inform senior managers on how best to implement emergency preparedness plans and strengthen global health systems.

Aneesah holds a B.A. in Anthropology from Bryn Mawr College and a M.P.H. in Health Policy and Management from Emory University. Her APU intelligence studies thesis—which was inspired by female service members who volunteered to serve in Female Engagement Teams (FETs) during the Iraq and Afghanistan War—appears in the Best Student Papers section of the APU library.
Welcome to the School of Arts and Humanities.
The School of Arts and Humanities offers a full range of online degrees that are based on the great ideas, works, and thinkers that have defined civilization as embodied in the “great books” tradition. Whether you’re studying the human condition from the viewpoint of military history, philosophy, religion, or child psychology, the interplay of analytical and speculative methods as well as the influence of historical events create a provocative and interactive classroom environment.

Our professors are adept practitioners in their fields of study and artfully weave together a diversity of world thought and expression to engage students in thoughtful discussion of humankind’s fundamental topics through the study of humanities, social sciences, and natural sciences. Our curriculum is designed to develop high-level research, analytical, and interpersonal skills, and to prepare students for a broad range of professional careers including communications, government relations, military operations, and social and family services. We invite you to join us on your educational journey.
Welcome to the School of Business.

Professors integrate new technologies and affiliations to keep the classroom challenging, interesting, and up-to-date with current trends. Students are taught not only theoretical concepts, but also the real-world application of the materials by experienced practitioners. Our degrees in accounting, business administration, and marketing dovetail with several industry and university specialties so that you may concentrate in areas of professional or personal interest—ranging from entrepreneurship and global business management to information technology management and homeland security resource allocation.

All programs within the School of Business are accredited by the Accreditation Council for Business Schools and Programs (ACBSP). While enrolled in the School of Business, we will guide and support you through your academic studies as well as assist you with your endeavors after graduation once you join our distinguished network of alumni—many of whom hold positions at top agencies and firms around the world.

“With online learning, you can do things on your own time, which helped me balance my family obligations.”

Martin Lawson
B.A., Transportation and Logistics Management
Welcome to the School of Education.

Our graduate education programs are built to meet professional standards. The individual courses are designed to assist teachers who want to become more effective in the classroom, and in the case of aspiring administrators—to emphasize their leadership skills. All courses are taught by professors with the highest attainable degree in their fields and extensive experience at all levels of education. You can be assured your instructors possess the wisdom and practical experience needed to provide a framework for effective classroom strategies and decision making. Class content is delivered online and many of our degree programs can be completed in one calendar year.

Whether you’re a teacher seeking to increase your pedagogical skills or you’re looking to attain your initial certification—our extensive support team is ready to help you get started and assist you through the entire program. We have experienced and knowledgeable faculty members who will provide you with expert guidance and support. Our interactive learning management system and extensive online library were designed to help you be successful in your educational journey. Additionally, our curriculum is aligned with industry-specific guidelines for leading academic programs like those established by the Child and Family Development National Council of Family Relations (NCFR).

Join a professional learning community where commitment to academic rigor is blended with an understanding of the challenges and needs faced by the adult learner.

“I chose APU because in addition to earning my master’s, I could apply for my teaching certification. It was the only program that offered both.”

Sarah Barz
M.Ed., Teaching (2013)
Welcome to the School of Health Sciences.

The School of Health Sciences offers an array of career-focused programs to address the learning and development needs of health-care, public health, sports and fitness industry professionals—including our flagship “RN to BSN” program. Combining top-academic credentials with practical expertise, our faculty is comprised of practicing public health professionals, sports management experts, sports administrators, and more to ensure you’re learning from practitioners who are passionate about improving and optimizing human well-being.

In many cases, our programs are recognized in their discipline. For example, our nursing program is accredited by the Commission on Collegiate Nursing Education (CCNE) and designed to emphasize three core areas of development from practitioner to scientist and leader. Our sports management program incorporates accreditation standards through a partnership with the American Sport Education Program (ASEP)—enabling some students to earn various ASEP certifications. And our public health master’s program is professionally-focused to educate and develop capable leaders by aligning with academic-community partners to deliver curriculum that addresses current public health issues.

Whether you’re considering entering the public safety or public health sectors, or you want to advance in your current career—the School of Health Sciences will help you meet your educational needs.

*An unencumbered registered nurse (RN) license is required.

The baccalaureate program at American Public University System is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

“The School of Health Sciences offers an array of career-focused programs...”

Lubaba Mohammed
B.S., Nursing (2012)

“Learning from my peers and industry experts really helped me gain more confidence as a nurse.”
I felt very empowered and challenged. I never thought I could balance kids, an active lifestyle, and an education. APU made it possible.

Panee Vaghedi
M.S., Environmental Policy and Management (2013)
Welcome to the School of Security and Global Studies.

The programs taught in the School of Security and Global Studies are designed for students seeking to make a difference in the world. These students appreciate the different influences that political, economic, and social cultures have in shaping world events. The programs within our school combine insights from sociology, political economy, psychology, cultural studies, and national and international security policy and issues.

From focused area studies to courses that address broader transnational and international issues, you’ll be thoroughly engaged with fellow students and faculty. The issues impacting professionals are fluid and dynamic. In the past, training was sufficient. Today, training is not enough. Professionals need education that enhances critical-thinking and analytical skills so they can understand the “why” of these issues. The School of Security and Global Studies helps prepare graduates to succeed.

“I absolutely feel the degree I received will help me to achieve all of my career goals.”

David Iorillo
M.A., Criminal Justice (2014)
Community of Learners
At APU, you’ll quickly see that we understand the importance of community and effective learning. Our student body is broad and diverse. Your APU experience is designed to be flexible and engaging. Many of our students tell us that their learning inside the classroom is greatly enriched by discussions with other students. This can be attributed to the high caliber of students at APU. There’s an online discussion board in each class where your professor and classmates gather. Additionally, you can network with professors and students through social communities, student chapters of industry associations, and professional forums—as well as a very active alumni group of more than 50,000. And more than 45% of undergraduate alumni return for a second degree.*

*Represents returning undergraduate students from 2012 conferrals.

Who is the typical student?
APU students are active, working adults from around the world often balancing family, school, and career. They range from a firefighter completing a degree in pursuit of becoming a fire chief to a mother studying alongside her husband demonstrating the value of education to their family—to a manager studying to improve leadership skills. We’re proud to have a strong community of learners ranging from those early in their careers to accomplished professionals looking to strengthen their current skills.

Academic Community
Is APU accredited? Can I get a quality education here?
Absolutely—American Public University is a part of American Public University System, which is accredited by the U.S. Higher Learning Commission (www.hlcommission.org, 312-263-0456). HLC is the accrediting body for some of the United States’ top universities. Many of our degree programs were awarded specialty industry recognition. In addition, we were the recipient of the Online Learning Consortium’s Ralph E. Gomory Award for Quality Online Education, which is based on learning effectiveness, cost-effectiveness and institutional commitment, access, faculty satisfaction, and student satisfaction.

What resources are available to help students succeed?
Open 24/7, the online library is an innovative center containing millions of pages of books and scholarly articles licensed from the Deep Web, and tailored specifically to the university’s programs. A team of dedicated librarians are available to help you. Additionally, you’ll have an assigned student advisory team, a wealth of resources through our Center for Teaching and Learning, and tutoring services.

Our professors are experts in the subjects they teach and they bring cutting-edge applications into the classroom. Many are leaders in their respective industries and instruct using relevant theory combined with their real-world knowledge.

What is the online classroom like?
As a student, you’ll enter your individual classrooms from the campus homepage. There are no required login times, courses are asynchronous, and you can participate anytime, night or day. This benefits all students by allowing for well-informed responses and participation in the online classroom and discussion boards. Additionally, our professors make a special effort to stimulate thoughtful provoking discussions about critical topics related to your discipline.

Find out firsthand what the experience is like by visiting our website for a classroom demo or by attending one of our admissions open house webinars offered on a regular basis.

What financing options are available to me? Will I be able to afford this?
Our tuition is among the most competitive in the industry so that you can reach your education goals and balance your budget. Our Financial Aid Office can help you identify financial aid for which you may be eligible, including Federal Student Aid as well as GI Bill and other veteran’s education benefits. Other services:

• Transfer Credit Evaluation (TCE) earns you academic credit for eligible education that you’ve already completed.
• Prior Learning Assessment (PLA) offers you the opportunity to earn credit for training you’ve acquired as part of your work and other eligible experience.

American Public University is the unprecedented four-time recipient of the Online Learning Consortium (OLC) Effective Practice Award.
“Education is the single greatest enabler that any individual can have to propel his or her career—and APU makes it accessible. We researched more than 80 schools and selected APU as our school of choice because we find them to be very dedicated to student outcomes.”

Alicia Ledlie
Senior Director, Lifelong Learning Program | Walmart

Our graduates and students include:

- An investment analyst for a leading pension fund
- A working mom who is a customer service specialist in the health care industry
- A history teacher
- A single parent—father of three—starting college to set an example for his children
- A small business owner specializing in disaster recovery
- Many other working adults across the globe

What alumni are doing professionally with their APU degrees?

You will find them in a variety of fields, including health care, IT consulting, logistics management, hospitality, government agencies and contractors, and more.

What resources are available to help me find a career in my field?

APU students and alumni have access to an array of career resources such as:

- Vault Career Library
- Focus-2 Online Career Assessment Program
- Resume review
- Interviewing strategies
- Mentoring opportunities and more

Our student body and faculty are working adults, and many are active in our vibrant social and networking communities. We offer you affordable tuition rates and access to our engaging classes, qualified instructors, and helpful resources and support services no matter where you reside. With APU, your degree is within reach.

Let us help you get started today.
