What makes AMU the right choice for your degree?

FOCUSED CURRICULUM—Our programs are in demand by national security, public safety, public service professionals, and many more. You have the opportunity to focus your studies on topics relevant to your professional demands.

CLASSROOM INTERACTIVITY—Students don’t sit through long lectures for every class and have information fed to them. Instead, they actively participate in our interactive classrooms. Class discussions involve every student through a threaded discussion that is available 24 hours a day. Other coursework includes case studies, simulation exercises, and research papers.

DIVERSE STUDENT BODY—You will learn as much from your fellow students as you will from course materials and the faculty. Your fellow students are like-minded professionals from a variety of backgrounds that include intelligence analysts within the federal government to law enforcement officers, business professionals, and military personnel in combat theaters overseas. More than 40% of our students are referred by a trusted colleague.

EXTENSIVE RESOURCES—Our online library gives you access to a collection of e-books, e-journals, and a variety of research tools, references, and databases such as Ebsco and Proquest, and specialized services such as ABC-Clio, CIAO, Earthscape, Lexis-Nexis, and Loislaw.
