Course Description (Catalog)

Focus is on getting the most efficient and effective outcomes from interconnected multiple-systems at a single location, the ease of movement between component parts, and the development and ongoing maintenance of the hotel's website.

Course Scope

This 8-week course is a comprehensive study of all the departments in the lodging organization, linking theory with real-world problems and solutions, and multi-dimensional case studies to encourage critical thinking. This approach challenges students to identify the issues central to complex management problems, understand the structure of department resources, and harness those resources to solve problems in the workplace. Instruction is primarily text book driven with accompanied online lectures and online classroom weekly forums. Because it is a survey course of a broad subject, it will out of necessity; cover each topic with a broad brush.

Netiquette

Online universities promote the advancement of knowledge through positive and constructive debate – both inside and outside the classroom. Forums on the Internet, however, can occasionally degenerate into needless insults and “flaming.” Such activity and the loss of good manners are not acceptable in a university setting – basic academic rules of good behavior and proper “Netiquette” must persist. Remember that you are in a place for the rewards and excitement of learning which does not include descent to personal attacks or student attempts to stifle the Forum of others.

- **Technology Limitations:** While you should feel free to explore the full-range of creative composition in your formal papers, keep e-mail layouts simple. The Sakai classroom may not fully support MIME or HTML encoded messages, which means that bold face, italics, underlining, and a variety of color-coding or other visual effects will not translate in your e-mail messages.
- **Humor Note:** Despite the best of intentions, jokes and especially satire can easily get lost or taken seriously. If you feel the need for humor, you may wish to add “emoticons” to help alert your readers: ;-), :), ☺
