CHAPTER STANDARDS

PROGRAM DESCRIPTION

The Chapter Standards program was developed to enhance and add value to the organization member experience, to create opportunities for leadership and engagement, and build and promote community. The program outlines university expectations for all student organizations and establishes guidelines for honoring and recognizing chapter achievements.

Based on an organization's performance and involvement in the categories of Leadership, Academic Recognition, Professional Development, University Service, and Community Building, the Office of Student Affairs awards chapters with Platinum, Gold, Silver, or Bronze standing.

Organizations are required to maintain active standing and complete basic requirements to remain recognized by the university. **Standings are determined according to the following point system:**

ACTIVITY

EVENTS & DETAILS

LEADERSHIP

Chapter Elections and Leadership Establishment

Organizations are expected to establish and maintain strong and active chapter leadership. Suggested officer roles include: President, Vice President, Secretary, Webmaster, and Advisor. A President or Chair is required for each organization. Elections should take place in the Fall with new leaders assuming roles in January of the following year.

New Officer and Advisor Training

The Office of Student Affairs has crafted leadership modules to enhance and support officers. These modules are self-paced and can be viewed any time. Chapter officers and advisors are encouraged to view the training modules to strengthen and broaden their overall understanding of student organizations. Officers and Advisors must submit the Officer Acceptance Form after training to formally begin their role.

Action Plan Meeting

Chapter leadership may schedule a quarterly planning meeting with the Office of Student Affairs to map out activities and events.

Member Feedback

Chapter leadership is expected to collect and share valuable feedback with members utilizing survey tools such as Survey Monkey, Facebook, Google Forms, etc. Member feedback is used to assist chapter leaders in making informed decisions regarding chapter operations and events.

Chapter Websites

Chapters are encouraged to create and maintain a strong web presence to share information and accomplishments, and to advertise chapter activities. Chapter websites may also be used to promote membership to prospective members. Please note, all chapter web sites bearing the university's name or logo, must be approved by The Office of Student Affairs.

Welcoming New Members After Each Membership Drive

Welcoming new members is a vital part of running a student organization, as it is an opportunity to introduce the leadership, chapter projects, and get new members connected to the mission of the organization early. Our expectation is that chapter leaders welcome new members after each membership drive.

ACADEMIC RECOGNITION

Recognition of Academic Achievement

To recognize members' outstanding academic achievements, chapters are encouraged to formally recognize members who have received honors or accolades. Chapters can acknowledge members through social media, newsletters, or during meetings or events.

Recognition of Outgoing Leadership

To recognize the achievement of outgoing leaders, the chapter is encouraged to formally recognize chapter members. Some recognition ideas include posts on social media, e-certificates of appreciation, "shout outs" in the chapter newsletter, etc.

Graduate Recognition

To recognize graduating members on their academic achievement, chapters are encouraged to participate in Commencement-related events and activities annually. Chapters may also opt to recognize graduating members using creative methods at-a-distance, through virtual recognition events.

CareerLink Mentoring Program

Mentoring relationships are focused on the exchange of academic and professional information. Mentees are seeking information and motivation in the pursuit of their goals, while mentors are those a few steps ahead sharing information and experiences. Organization members are encouraged to participate as either mentees or mentors. Organization members who participate as a mentor or mentee in the program can earn Chapter Standards points by completing a post-relationship mentoring survey. Organizations may also opt to host mentoring-related events or group training sessions.

University Awards Program

To recognize the personal and academic achievement of chapter members, each chapter is asked to nominate outstanding student and alumni members, faculty or staff for the University Awards Program, which includes the Dr. Wallace Boston Leadership Award, the James P. Etter Creativity and Innovation Award, the President's Award, Alumni Awards, or Student Organization Awards.

PROFESSIONAL DEVELOPMENT

Guest Lectures

Organizations can invite guests to speak on topics related to the organization's mission and objectives. These guest lectures may occur by phone, virtually, or in-person and should conclude with either notes or a recorded session for distribution.

Chapter Project

Whether virtual or in-person, chapters are expected to host a project that includes students, alumni, faculty, and/or professionals in the field. The project should reflect the mission and objectives of the organization. Examples of chapter projects include, but are not limited to, journals, contests, and/or presentations.

Host Lunch and Learn Webinars

Chapters are encouraged to coordinate with the Office of Student Affairs to schedule, plan, and host a presentation in the Lunch and Learn series.

Cross-Chapter Networking

Career Services Connection

Organizations are encouraged to coordinate with the Office of Career Services to provide targeted resources and information to the chapter. Collaboration options include: a group career coaching session, Career Services overview presentation, or a resume workshop. Organizations may opt to advertise services provided by the university.

FAQ SHEET

What is the purpose of the Chapter Standards Program?

The University strives to build community by connecting students, alumni, faculty and staff with common interests in organizations that complement the university's mission—specifically in the categories of academics, service, and leadership. The Chapter Standards program provides opportunities for member engagement and encourages organizations to build leadership and involve members in projects, activities, and events related to the organization's purpose.

What awards and recognition are provided to outstanding organizations and leaders?

The University is committed to recognizing outstanding chapter and leader achievements throughout the year. Recognition includes, but is not limited to, chapter standards certificates, recognition letters, displaying accomplishments on the public web, and additional acknowledgment at annual Commencement activities.

What role do the chapter advisors play in the Chapter Standards Program?

Chapter advisors lead and provide guidance to student and alumni officers. The chapter advisor's primary role is to build competent leaders and ensure officers are abiding by the rules and policies provided in the Student Handbook and The Student Organization Handbook. Chapter advisors work directly with the Office of Student Affairs to report organization challenges, communicate with national affiliates, conduct/verify financial transactions, and support membership drives.

What role do the student/alumni chapter officers play in the Chapter Standards Program?

Student and alumni chapter leaders and/or officers are responsible for leading a chapter to at least active standing, per the Chapter Standards program. This leadership includes, but is not limited to, planning and executing chapter activities, welcoming and onboarding new members, submitting chapter paperwork (including annual planning and leadership transition documents), and maintaining a social media presence.

How and when are chapter leaders responsible for reporting activities/events/projects?

Chapter leaders are asked to submit activities throughout the year, using the leadership forms displayed within the Student Organization Hub. Preliminary reports are provided to chapter leaders on February 1, May 1, and August 1 to share the chapter's formal progress. Chapter leaders must report all activities within a week of completion. Final reporting is due by October 31st for final analysis.

If an accomplishment does not fall into an activity or event category, does it still count as points towards chapter standing?

Accomplishments and activities outside of the Chapter Standards program are supported and encouraged. Organization leaders should report the items on the Chapter Standards Reporting Form and reach out to the Office of Student Affairs for evaluation. A Student Affairs Liaison will determine the amount of points allocated to the accomplishment.

What is the expectation for organizations that have not been established for a full year?

All student organizations are expected to achieve at least active standing per the Chapter Standards Program regardless of the establishment date. Student organizations established in August, September, and October are expected to demonstrate a good faith effort to achieving active standing.
